

Mary Adams-Moe

Experience

Attorney/Mediator Adams-Moe Mediation

Current

Experienced in mediating civil and family disputes. Qualified to accept court ordered mediation for civil cases, including intellectual property, business, insurance, employment, and community disputes. Certified to accept court ordered mediation for all family matters, including divorce, child custody and modification orders. Qualified neutral for the collaborative law process. Qualified neutral for settlement processes in dual track litigation.

Patent Attorney

2004-2010

Worked with inventors to uncover their patentable inventions. Wrote patent applications and argued the merits of the applications with the United States Patent and Trademark Office (USPTO). Negotiated with inventors and the USPTO to alter the applications until the inventor's patentable invention was acknowledged by the USPTO. Wrote over 50 patents.

- Slater & Matsil LLC: Worked primarily within Laser and Semiconductor technology.
- Yee and Associates LLC: Worked primarily within Computer and Consumer technology

Engineering Management

1986-2003

- Texas Instruments Incorporated: Oversaw the smooth running of technical processes in a wafer fabrication facility, including implant, diffusion, plasma and parametric test. Was promoted from Engineer to Section Manager to Department Manager. Developed an award winning process monitor technology and trained other technical Tiers internationally in process monitor's use. Facilitated large group meetings of multidiscipline groups internationally. Was a member of the TI technical staff.
- Hitachi Semiconductor America: Led a group of 35 Engineers and Technicians, both Japanese and American, as their first female Process Engineering Manager. Resolved complex technical issues. Purchased multimillion-dollar equipment. Oversaw the smooth running of the factory processes, and managed technology transfers between the Japanese and the American facilities.
- TestChip Technology: Managed the test lab facility. Implemented novel test methods for evaluating new technologies for multiple semiconductor companies globally. Developed an automatic test writing software package in India and negotiated the sale of the software package in Japan, making our small startup company profitable for the year.

Education

Southern Methodist University Dedman School of Law JD 2005

I enjoyed my three years at SMU law. Law school was a welcome break in my work-life and was filled with exciting new ideas and information. With guidance from my professors and fellow students, I mastered the blend of objective analysis and subjective analysis. I had the opportunity to study most Intellectual Property subjects offered by the university.

University of North Texas BS Physics *cum laude* 1985

Studying physics at UNT was a satisfying challenge. I was already the busy mother of three children when I attended UNT, so organization, hard work and good humor were the qualities I pulled on the most often.

Special Skills

Licensed to practice law in the Texas, Registered to practice before the United States Patent and Trademark Office, Certified to practice Collaborative Law in Texas, Certified to mediate court appointed civil and family cases, Excellent managerial skills, Ability to quickly understand and analyze complex problems.
